

Precision Foundry Cored-Wire Injector

Engineered specifically for foundry applications, the Afficast™ Precision Foundry Cored-Wire Injector delivers unmatched performance, reliability, consistency and control.

Designed with robust components and advanced automation, it ensures a long service life, maximum uptime and precise wire delivery.

Partner with our process engineers and technical team to customize a cored-wire injector and treatment solution for your specific process and casting quality requirements.

Specifications

	# of Lines	Speed (ft/min)	Speed (m/min)	Power Requirements
Afficast™ Precision Foundry Cored-Wire Injector	1 or 2	0-246 or 32.8-328	0-75 or 10-100	480VAC, 3Φ, 20A, 60Hz

Services Provided

- Custom design and manufacturing to your specifications
- PLC programming and feeding rate/length calculation integration
- On-site Installation and operator training
- Spare parts supply and ongoing maintenance support
